EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Murabito on 5/12/2005.

The application has been amended as follows:

For claim 6, in line 8 after the word "material" please insert "grows to" and replace "generates" with "generate" to read "electronic muscle material grows to generate a plurality of function buttons in the proximity..."

For claim 16, line 8 after the word "handedness" please insert "grows to" and replace "generates" with "generate" to read "determines handed ness of said user and, based on said handedness, grows to generate a..."

For claim 29, line 9 after the word "and" please insert "growing to" and replace "generating" to "generate" to read "material, detecting the handedness of said user and growing to generate a plurality of..."

2. The following is an examiner's statement of reasons for allowance:

The cited prior art and the non-patent literature failed to teach the applicant's invention of using dielectric elastomer electronic muscle material in a computer system to "grow to generate a plurality of function buttons in the proximity of user fingers" is unique and thus deemed

patentable. The limitation of "grows to generate" was amended to the claims to better define the relationship between the dielectric elastomer material and the buttons, clarifying the idea that the dielectric elastomer material physically changes shape to form itself into a functional button.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ming-Hun Liu whose telephone number is (571)272-7770. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sumati Lefkowitz can be reached on 571-272-3638. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
